EDUCATION

2022 – 2026

KNOWLEDGE INSTITUTE OF TECHNOLOGY (KIOT)

- B.E Computer Science Engineering CGPA 7.73%

2020 – 2022

KAMARAJAR MATRIC HIGHER SECONDARY SCHOOL

- HSC 70.8%

2019 – 2020

SRI SWAMY INTERNATIONAL SCHOOL (CBSE)

- SSLC 69.6%

SKILLS

- Programming: C, Java, Python, SQL
- Concepts: Data Structures, Algorithms, OOP, DBMS
- Web: React.js, Node.js, Express.js, MVC
- Tools: Google Antigravity, Git, GitHub, VS Code, Debugging, Testing

PROFILE

I am passionate about building real-world web and AI applications, and I have gained hands-on experience in technologies like React.js, Node.js, Java, Python and SQL through internships and projects. My strong problem-solving skills enable me to create scalable solutions that make a practical impact.

INTERNSHIPS

Java Programming at DevSkillHub (FEB 2024 – APR 2024):

- Mastered core to intermediate Java concepts, including OOPs, multithreading, and file handling. Developed dynamic applications using Git and IDEs like Eclipse/IntelliJ to streamline the development workflow.

UI & UX Design at CODSOFT (FEB 2024 – MAR 2024):

- Applied user-centric design principles to create intuitive interfaces through hands-on mentorship. Built interactive wireframes and high-fidelity prototypes using industry-standard tools like Figma and Adobe XD.

Data Analytics at TECHNOHACKS (MAR 2025 – APR 2025):

- Processed and cleaned complex datasets to extract actionable insights using Python libraries like Pandas and NumPy. Created data-driven visualizations and dashboards utilizing Power BI, Tableau, and Matplotlib for clear reporting.

PROJECTS

- IoT-Enabled Unified Gas Safety Management System (Final-Year Project 2026)
- Student Enterprise Resource Planning
- WomenSafety & POSH Platform
- Ticket Booking Site
- Power BI Dashboard – Blinkit Analytics
